SUMMARY

Myself Arun Vignesh V, a BCA student at VISTAS, committed to continuous learning and growth in the dynamic field of technology. With a long-term goal of building a strong foundation in web development, I actively pursue relevant courses and certifications to enhance my skills. I thrive on challenges, try to excel in problem-solving, and am dedicated to developing innovative solutions.

EDUCATION

Bachelors of Computer Applications (General)

August 2024 - Present

Vels Institutue of Science, Technology and Advanced Studies

FREELANCING PROJECTS

1) Selva's Art Haus - Bridal Beautician

- **Live Site:** [Selva's Art Haus](#)
- Designed and developed a responsive, visually engaging **website** for an **art-focused brand**. The site showcases artworks, promotes upcoming events, and integrates contact functionality to enhance user engagement.
 - Built using **React, Framer and Tailwind CSS** and responsive design principles for cross-device compatibility.
 - Emphasized minimalist aesthetics and clean navigation to reflect the artistic brand identity.
 - Collaborated closely with the client to align the website with their creative vision and functional needs.

OWN MINI PROJECTS

1) Hand Cricket : A Gesture-Controlled Web Game

- **Live Site:** [Hand Cricket using Ai](#)
 - Developed and deployed a browser-based interactive **AI Hand Cricket game** that detects hand gestures to simulate traditional hand cricket gameplay.
 - Built using **React.js**, **MediaPipe**, and **TensorFlow.js** for **real-time finger gesture recognition** and game logic execution.
 - Implemented smooth, responsive UI with **Framer Motion** and styled components for enhanced user experience.
 - Enhanced accessibility by eliminating the need for physical controllers—just use your fingers and a webcam to play.
 - Demonstrates the intersection of AI, web technologies, and user interaction in a creative, nostalgic game format.
-

COURSES AND CERTIFICATIONS

1) Proficiency in Python Programming

- **Institution:** Open EDG Python Institute
- **Credibility:** [Certification](#)

2) Pass Certified Associate In Python Programming

- **Institution:** Udemy
- **Credibility:** [Certification](#)
