PROFESSIONAL SUMMARY

Full-stack software engineer and product engineer with production experience across React, Next.js, Node.js, TypeScript, REST APIs and cloud deployment. Has shipped 6+ production applications for clients across India, an open-source desktop developer tool, and a sports academy management SaaS platform used by 500+ sports academies. Owns delivery end to end: problem definition and PRDs through system architecture, implementation, deployment and release management. Experience spans SaaS, e-commerce, healthcare and mobile products, with technology leadership responsibility for engineering standards, code review and cross-functional coordination.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, C, C++, HTML, CSS

Frontend: React.js, Next.js, React Native, Flutter, Tailwind CSS, Responsive Design, State Management

Backend and APIs: Node.js, REST APIs, API Development, Authentication, MongoDB, Supabase (PostgreSQL), Firebase

Cloud and DevOps: AWS EC2, Vercel, Netlify, Render, Coolify, GitHub Actions, CI/CD, Deployment

Product and Engineering: Product Management, PRDs, User Stories, Roadmapping, Sprint Planning, Agile, Scrum, UX Research, Usability Testing, Backlog Prioritization, QA, Release Management, Stakeholder Management

Tools: Git, GitHub, VS Code, Figma, Postman, Android Studio

PROFESSIONAL EXPERIENCE

Concurrent technology, product and software development engagements.

Chief Technology Officer Mar 2026 - Present
TrackMy Tech Pvt. Ltd., Chennai, India

- Lead technology strategy and system architecture decisions for scalable web and mobile products.
- Own the product development roadmap, coordinating engineering, product and design functions from specification through release.
- Established engineering standards for code review, deployment and release management across the team.

Software Product Manager Aug 2025 - Feb 2026
Track My Academy, Chennai, India

- Owned the end-to-end product lifecycle for a sports academy management SaaS platform used by 500+ sports academies and their coaches and players.
- Defined PRDs, user stories, sprint goals and feature roadmaps with engineering and design teams using Agile and Scrum practices.
- Ran iterative UX research and usability testing, translating findings into prioritised backlog items that drove engineering execution.
- Managed production releases, QA cycles and issue resolution to maintain platform stability.

Senior Software Associate Jan 2025 - Present
Marina Digital, Chennai, India

- Developed responsive production interfaces using Next.js, React and Tailwind CSS for e-commerce, healthcare and IT-services clients, aligning frontend implementation with branding, performance and SEO requirements.
- Delivered client-facing websites end to end, from build through production launch.
- Managed deployment, domain configuration and post-launch maintenance across client production environments.

Senior Web Developer Nov 2024 - Mar 2025
Track My Academy, Chennai, India

- Led end-to-end development of the Track My Academy website using React, JavaScript and HTML/CSS.
- Implemented on-page SEO, Lighthouse performance optimisation and cross-browser compatibility fixes.

Android App Developer Intern Jan 2025 - Mar 2025
Corizo, Remote

- Built Android application features using Java, Kotlin and Android Studio.

AI/ML Research Intern Sep 2024 - Oct 2024
Novitech R&D Pvt Ltd, Chennai, India

- Supported data preprocessing, model training and AI-driven research tasks.

PROJECTS

Track My Academy - Sports Academy SaaS Platform
React, *Node.js*, *MongoDB*, *Supabase* | *trackmyacademy.com*

- Built a production SaaS platform with role-based dashboards for academy owners, coaches and players, serving 500+ sports academies.
- Implemented operations tracking and engagement features backed by a production deployment pipeline.

Claude Prompter - Open-Source Desktop Utility
C#, *.NET 8*, *WPF*, *Avalonia UI*, *AppleScript* | *claudeprompter.arunvignesh.my*

- Developed a cross-platform desktop tool that auto-approves Claude Code permission prompts in approximately 300 ms with no user interaction.
- Shipped Windows support (CMD, PowerShell, Windows Terminal) and macOS support with a privacy-first design: zero network access, zero telemetry.
- Published on GitHub under the MIT license with a 100% permission-detection success rate in testing.

Marina Digital - Agency Website
React, *Next.js*, *Tailwind CSS* | *marinadigi.com*

- Delivered an SEO-optimised, performance-tuned frontend supporting production deployments and client delivery.

Selected Client Work - Production Websites
Next.js, *React*, *TypeScript*, *Tailwind CSS*

- Kyra's Elite (kyraelite.com): e-commerce platform for a premium clothing brand with optimised checkout UX; Next.js, TypeScript, Tailwind CSS.
- Fufies (fufies.in): mobile-first e-commerce site for a plushies brand with product discovery flows; React, Tailwind CSS.
- Madipakkam Physiotherapy and Health Care Center (madipakkamphysioandhc.com): healthcare site serving 50+ patient visits per day, with service pages, doctor profile and appointment booking; Next.js.
- ADSYS Infotech Solutions (adsysinfo.com): responsive, performance-optimised corporate website for an IT services company.

CERTIFICATIONS

Full Stack Web Development - Rare Minds	April 2025
Android App Development Internship - Corizo	March 2025
PCAP: Programming Essentials in Python - Udemy	June 2024
Python Essentials - OpenEDG	June 2023

EDUCATION

Bachelor of Computer Applications (BCA)
Vels Institute of Science, Technology and Advanced Studies (VISTAS), Chennai, India
Aug 2024 - May 2027 (Expected)
CGPA: 8.67/10 (as of Aug 2026)
